Craft Corner

Back to School Craft

Back to school crafts: School bus art project
Materials needed:

1 standard-sized white paper plate
School Bus Shapes craft printable
Yellow tempera paint
paintbrush
kid-safe scissors
glue stick

Have your child pick up each shape and match it to the appropriate area on the plate, say each shape along with them as they go. Glue each shape onto their respective areas, you've got yourself a paper plate school bus!

August's Family of the Month – The Bell's

The Bell's

We love spending time building legos together as a family, we love being silly and having dance parties, Haisley and her daddy are the goofiest of goobers when they get together. We work hard and try our best everyday. We're trying to raise a good human above all else. We have lived in Montgomery for about 6 years and we love it. Haisley is resilient as they come, and has such a sweet soul. She is hands down our greatest accomplishment. We like to spend time with our extended family as much as possible. Basically we're a bunch of goofy weirdos who love our Jean Bean and singing off key in the truck together. Please feel free to include how much we love y'all also, because truly you're all incredible.

Teacher of the Month

*Congratulations to Ms. Desiree
Rm 7*
