August 21st: Future Career Day Dress as Your Future Career
August 28th: Favorite Pet or Animal Print Day

Power of Play

Unveiling the Hidden Learning Gem

Fine and Gross Motor Skills: Fine motor skills development is more than learning to control a pencil and write letters. From scribbling with crayons to stringing beads, every moment contributes to their physical development and lays the groundwork for future motor proficiency. Children playing with loose part manipulatives or playing in a sand/water table are developing fine motor skills muscles needed for future writing. Running, jumping, climbing and balancing – preschool play is a full-body workout that also strengthens fine skills in addition to obvious gross motor skills. Whether they're engaged in indoor activities or outdoor play, children are constantly refining their coordination, balance, and muscle control.

Lighthouse Bright Curriculum
