

OUR BRAND PROMISE

We create a safe, fun, and happy place that gives your child confidence, a sense of comfort today, and a lifelong love of learning, friendship, and community.

Nottingham Family Mission:

"Educating the mind without educating the heart is no education at all." – Aristotle We will actively engage the heart and the mind of the child in all that we do and recognize the positive growth of our society is dependent on this hard work.

Nottingham Family Vision:

We recognize that loving children well and teaching their hearts and brains from the very beginning will set them up to excel in life and to positively impact our community. Families are the foundation of our society. We will serve and encourage each family that walks through our doors with respect and kindness. Our colleagues are our support system within these walls. We will honor and love one another in any feasible way that we can.

These statements are the driving force behind everything that happens at Children's Lighthouse of Nottingham. As administrators and teachers, we can pour into parents and children in a way in which very few have the opportunity. We will choose to use this gift to grow these people – hearts, minds and souls – on the days when it is easy and on the days when it is challenging. Families are entrusting us with their most dear treasures, their children, and we will put all our effort into developing their character and potential, so they graduate from our care as beautiful human beings. We will do so by our own initiative and we will hold each other accountable in
