We did it! Our school is now accredited through Texas Rising Star! You may have seen some ladies with clipboards in our school recently, as one parent shared with me... they looked like they meant business! Well, those ladies were here to access our program. They spent one hour in each classroom; they evaluated our education backgrounds and school policies as well! The result is that we are now a level 3 STAR Texas Rising Star School. See the below link to learn more about TRS and its benefits to our program.
