

April Newsletter

Children's Lighthouse of Harvest Green

Dear Lighthouse Families,

We hope this Newsletter finds you well and filled with the joyous spirit of Spring! We wanted to take a moment to express our heartfelt gratitude for your participation and support during our recent Spring Social. It was truly a delightful event that brought our entire community together. It was wonderful to see the children's faces light up as they interacted with our Easter Bunny and were able to fill their baskets with eggs thanks to our teachers, parent volunteers, and small businesses. Additionally, we were delighted to have local business vendors join us, showcasing their unique products and services. Once again, we extend our deepest appreciation to all parents, volunteers and staff for making this a spectacular event.

We are also thrilled to announced that our annual St. Jude Trike-a-Thon is just around the corner, and we couldn't be more excited. This event holds a special place in our hearts as it allows us to come together for a meaningful cause while having a blast. We eagerly anticipate this event every year. St. Jude's Children's Research Hospital is an incredible organization dedicated to advancing cures and prevention methods for pediatric diseases through research and treatments. Participating in the St. Jude Trike-a-Thon is our way of supporting this worthy cause and teaching our children the values of empathy and compassion. This event is happening on Friday, April 12th. Stay tuned for more details. Thank you all for your continuous support!

-Shannon Maddasion/School Director

Science & Nature Focus: Life Cycles, Insects, Amphibians
Math & Manipulatives: Sets 1-10, Measuring, Patterns
Author/Book of the Month: Author: Eric Carle, Book: ABC Insects
Character Value: Responsibility

School Age

Character Value For The Month: Responsibility

Whether your child is enrolled in our full day Virtual Learning program or our Before & Afterschool program, he/she will be participating in our new School-Age **Quest** Curriculum.

With the **Quest** curriculum, the children can choose different challenges in a variety of S.T.E.A.M. based interest areas including science, technology, engineering, art and mathematics. After they complete their chosen challenge, they will receive a cog (similar to a badge). These challenges can be done individually, with a partner, outdoors or even within the community. The children will continue to receive cogs as they complete challenges daily.

The **Quest** curriculum includes an emphasis on character values and community service. The curriculum develops critical and higher level thinking skills while having a strong outdoors component.

Happy Birthday!
