Craft Corner

Materials:

Green Paint – I used glitter green paint
 Red, Yellow, and Pink paint – another good color would be lavender
 2 Paper plates
 Ribbon – about 2 ft. long
 low-temperature glue gun and glue sticks
 scissors

Directions:

Paint your child's hand green and press it onto the middle of the plate, so the fingers are on the top half. Let dry, then using the red, orange, and pink paint to make hearts with thumbs and flowers with fingertips. Flowers are just 5 fingertips with an orange fingertip in the center of the circle.

Hearts are 2 thumbprints facing opposite of each other. *you can paint a point in the bottom corner to make it really resemble a heart.

To make the cover, use a paper plate that is cut in half
 Turn it around and glue it to the bottom half of the plate
 Finish with another thumbprint heart

Add ribbon with your glue to the back of the handprint plate, so I can hang it on the wall

February's Family of the Month – The William's

A little about us...

John and I met while serving in the US Navy and after leaving military service in 2007, we moved to Miami, FL where we attended college. Years later, Logan was born and we decided to move back to Texas in the summer of 2018 and have since welcomed our Rose and Jack. We joined Children's Lighthouse at the end of 2021, as a family of 4 which quickly went to 5. Over the years, all 3 of our kids have attended CLH full-time or as drop-ins. Logan, Rose, & Jack keep things fun with their wildly different personalities and are always excited about holidays and trying new things. They love to be outside and do crafts. Logan loves art and video games, Rose loves cheer and swimming, and they're super excited about recently starting karate. Jack loves puzzles and dinosaurs.

Employee Of The Month

Congrats to Mrs. Brittany RM 5
