### News

In the month of January we learned so many new things. We used the color blue to paint our shape of the month, and dangled our feet and hands into flour to feel the texture of it. We created a scrap book of photos of all the art and curriculum we completed. Room 1 really enjoyed learning the song "Head, Shoulders, Knees, and Toes." We are excited to see what next month brings us!

Mrs. Darlene & Ms. Andrea

### News

In January we learned about the circle shape, the color blue, and practiced the our sign "play". We had fun using our fingers and toes in flour, and enjoyed making winter crafts. One cool activity we enjoyed playing was paper ball toss and playing with our toy phones. We are very eager to enter February to learn some more!

News

In the month of January we played with sensory bags with circle buttons. We went back into time and painted with dinosaur feet and scooped dinosaur eggs from the water. Our toes and fingers also played in flour to feel the texture of it. A few exciting activities we completed was the hidden name painting, a scrap collage of shapes and colors. Room 3 is curious as to what February will bring us!

News  
 3, 2, 1 BLAST OFF! This month we learned about all things in "Space". We focused on "stars", which is our shape of the month. We created a lot of amazing art such as our space mural, a star dust collage, and moon sand. We also discussed about planets and astronauts. Room 4 had so much fun this month and can't wait to see what's for us in February!

News

Room 5 had an amazing start to the New Year. We talked about different seasons and how the trees change depending on the season. We also got to explore how different seasons have different weather. We also took a look at animals that love to live where it has freezing weather like polar bears, penguins, and sea lions! We have been practicing our letters and sounds really well all month. Room 5 celebrated 'Diversity' by observing how everyone is different and that is beautiful! We are anxious to learn more in the month of February.

Events happening within our center:

- ❖ A visit from the Tooth fairy (Kinard Family Dental) 2/11/19
- ❖ 100th Day of School 2/12/19
- ❖ APK Rodeo Field Trip 2/14/19
- ❖ Valentine's Day parties 2/15/19
- ❖ Dr. Seuss Week 2/25-3/1/19

Happy  
Valentines  
Day

Room 6

### News

This month was full of awesome activities. We made a rainstorm using shaving cream and blue food coloring.

We used fruit loops to make a rainbow and enjoyed eating them. Our friends also learned about polar animals and made "snow" from liquid starch, water, and salt for our polar bear activity. The last activity we did was, we made a penguin using toilet paper rolls and crafts. It was very exciting this past month, but we are ready to enter the month of February!

News

### News

During the month of January we had a blast learning about seasons and weather. The whole class enjoyed making art for each season, and built habitats for the polar animals which are in their block center. Some of their favorite activities were the rain, snow, and magnetic sort prop boxes. Our friends were super excited to learn new Spanish and sign language words while celebrating diversity. We completed a few activities that helped us understand the concept more better. Room 7 is very excited for February and looking forward to Valentine's Day, and all the new themes we will be learning about.

Ms. Alyssa

### News

January has been filled with several activities to focus on our themes and science and nature focus. The children enjoyed the magnets in math and science, they were very curious as to which ones would pull and stick together. We utilized our sensory tub that was filled with ice and water to demonstrate that the penguins and polar bears lived in a familiar habitat. Room 8 created a penguin by using shapes such as circles and ovals. We learned so much this month, we are off to a good start this year, and very eager to see what February has in store for us!

### News

In the month of January, the Children learned about the seasons and weather. They also learned about the arctic animals and enjoyed playing with them in their sensory tubs. The kids also enjoyed doing weather experiments such as making rain and "How do Penguins Stay Dry" experiment. We also had fun exploring with magnets, dressed up dolls with different cultural clothing and discussed about diversity and understood how we are different and beautiful we all are. We are eager and excited to learn more in the month of February!

### News

In the month of January, we learned about many exciting things. In science we explored into static electricity and states of matter, the children enjoyed every minute of it. Next, we celebrated Martin Luther King, JR day, and discussed the many changes and support he gave for the people, especially for the children! APK is progressing wonderfully with their writing and reading, keep up the amazing work! We are excited for our first field trip in February!

## News

Happy New Year! In the month of January room 10 has been busy learning about very diverse topics. We've had the opportunity to touch on Europe and all of it's countries and even major land marks! The second week of January had the after schoolers dive into the world of weather and its many forms. Room 10 is currently learning about the middle ages and many of the students love learning about the massive castles and Kings and their staff that resided within. We will rap up January by looking more into topics of families and they look like across the world!
