# Our 1<sup>st</sup> Annual Science Fair

Our first annual Science fair was a big success! We are so proud of all of the students for working so hard on their projects and giving it their all.

We would like to congratulate Rm 8, our older 3 year old class for winning the 1<sup>st</sup> place pizza party prize with their science project "Walking Water". The kids had a blast conducting their different experiments and it was nice to see their levels of excitement during the entire process. We look forward to hosting more fairs in the future. For anyone who missed out on all of the fun, check out these pictures of the kids during the experiment process.
