LISTEN 360

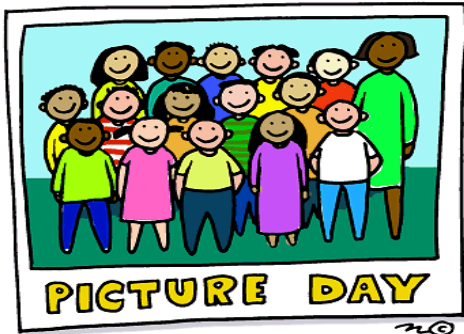

FAMILY SURVEYS

Childrens Lighthouse is dedicated to quality in care, education and customer service and to maintain our distinction in this field we conduct ongoing surveys to newly enrolled families, currently enrolled families and even families who have dis-enrolled. As a school we benefit from the positive accolades as well as the constructive criticism given when our families complete these surveys. I often share the wonderful comments made about our teachers at staff meetings as I feel they need to know how much our children and families love and appreciate them. I also evaluate our program structures when given negative comments so that we can make the necessary changes to make things better. As always, my door is open to my families and staff alike when issues arise and I put a considerable amount of thought into how to best correct the issue.

When you receive the invitation to complete the Listen 360 Survey, please do so honestly and remember to leave comments to help us be a better school. Our current completion percentage is less than 50% and as the surveys go out to random families and on a sporadic schedule, we do not know when or who will receive these surveys. Therefore, I ask that if you see it come across your email, please take a moment and complete it so we can raise our family participation to 100%!
