

Dear Lighthouse Families,

February was such a heartfelt month for us. We were so grateful to celebrate our 4th birthday this past month. We also took delight in sharing the love with our senior community members at The Legacy at Longmeadow senior living facility by passing out carnations and valentine artwork to residents. Seeing the smiling faces on our Lighthouse -Harvest Green kiddos and Legacy seniors gave us all the joyful feels. Visiting and giving back to our community is our absolute favorite!

The month of March will be kicked off with Dr. Seuss week and our annual Dr. Seuss presentation which the kids take a great delight in participating. We look forward to hosting our schoolers for Spring Break and giving them a sneak peak of our summer program with fun field trips and engaging activities throughout the week.

Finally, keep those Go Texan Day outfits ready because we will have visitors from the Houston Livestock Show and Rodeo giving us a presentation the kids will enjoy!

Check out our curriculum news below to review themes and learning topics for the month! -Shannon Maddasion/School Director

School-Age Curriculum Overview

Whether your child is enrolled in our full day or our Before & Afterschool program, he/she will be participating in our School-Age **Quest** Curriculum.

With the **Quest** curriculum, the children can choose different challenges in a variety of S.T.E.A.M. based interest areas including science, technology, engineering, art and mathematics. After they complete their chosen challenge, they will receive a cog (similar to a badge). These challenges can be done individually, with a partner, outdoors or even within the community. The children will continue to receive cogs as they complete challenges daily.

The **Quest** curriculum includes an emphasis on character values and community service. The curriculum develops critical and higher level thinking skills while having a strong outdoors component.
