News

It was a spooky month, which meant that we will learned about nocturnal animals. One animal we specifically discussed about was a Beaver. We learned that they are community animals that work together to build their community. This led to discuss about our very own community and identified community workers that assist in our community. We are very excited for November and the new challenges to come!

Apk has learned so much during the month of October. Our writing has come a long way. We have our "Last Names" down. Together as a class we have read our mini- readers very smoothly. One cool science lesson was, learning about the cycle of a pumpkin growing. It fit well with our Halloween month! The holidays are near and we are excited for many activities happening next month!
