Fabulous Fridays

Nov 7th Wear Yellow for BRIGHT color of the month
Nov 14th Cozy Flannel Friday
Nov 21st Family Matching Friday (Match for our Family Luncheon)

Power of Play

Unveiling the Hidden Learning Gem

Emotional Regulation: In the whirlwind of preschool play, emotions run high and conflicts inevitably arise. Yet, these moments of friction are invaluable opportunities for emotional growth. Through negotiation, compromise, and conflict resolution, children learn to manage their emotions, regulate their impulses, and navigate social dynamics effectively. Because of the child-initiated aspect of learning centers, they become a laboratory for emotional intelligence, where preschoolers develop the resilience and self-awareness needed to thrive in diverse social settings

Lighthouse Bright Curriculum

Infants 1 and 2

Theme: Food, Food, FOOD

Spanish: Yellow; Amarillo, Rectangle; Rectangulo

Sign Language: Milk; La Leche

Prop Box: Time To Eat

Character Value: Gratitude

Shape: Rectangle

Themes: Fall, Forest Animals & Giving Thanks

Letters: Ff, Li, Gg,

Spanish and Sign language: Pumpkin; La Calabara, Tree; El Arbol, Thank You; Gracias, Bear; El Oso

Book: Brown Bear, Brown Bear, What Do You See?

Character Value: Gratitude

APK

Themes: Fall, Forest Animals & Giving Thanks

Letters: f, i, g

Spanish and Sign language: Boat; El Barco, Tree; El Arbol, Thank You; Gracias, Bear; El Oso

Book: Brown Bear, Brown Bear, What Do You See?

Character Value: Gratitude

Solo Challenge: TURKEY IN A CUP

Have you ever witnessed lightning during a storm? Sometimes it's distant, and other times it's close and dazzling! Lightning is essentially electricity in action. In this Challenge, we're going to simulate lightning using static electricity. You might have experienced static electricity yourself, like when your hair stands on end after rubbing a balloon against it.

Follow the steps for Testing Sound Waves:

1. Lay out the trash bag flat on the table and secure it in place with tape.
2. Place the metal pan on top of the trash bag.
3. Roll the clay into a ball.
4. Firmly push the clay ball to the center of the pan to make a handle.

Experiment

1. Hold onto the clay handle and push your pan in circles for about 30 seconds. For this experiment to work, you cannot touch the metal of the pan.
2. Pick up your pan, touching only the clay handle. 3. Keep the pan lifted with one hand while using the other hand to touch the metal lid to one corner of the pan. Watch closely. You see a tiny spark jump from the corner of the pan to the lid

Happy Birthday Students

Georgie W. 3rd
Nolan B. 6th
Jaxon D. 6th
Charlie W. 7th
Lucas H. 8th
Ayra R. 10th
Archie G. 17th
Liam O. 19th
Thyri M. 23rd
Piper S. 25th
Luka S. 29th
Savannah P. 29th
Roni L. 30th
Collins C. 30th
