Power of Play

Unveiling the Hidden Learning Gem

Enhancing Language Abilities: Listen closely to a group of preschooler engaged in imaginative play and you'll hear a symphony of language development. Whether they're acting out a story, engaging in pretend conversations, or simply narrating their actions, children are constantly honing their vocabulary, grammar, and storytelling skills. Play provides them with a rich context for language exploration, laying the foundation for proficient communication in the years to come. Preschool children learn language skills in every learning area within a preschool classroom.

Community Challenge: Eyes on the World

The Lions Club Eyeglasses Donation Program collects used prescription glasses and sunglasses to help individuals in need. Donated glasses are sorted, cleaned, and prepared for reuse through vision programs that serve communities around the world. It's a simple way to give old glasses a new purpose and help support better vision for others.

As a group students will create four donation posters. The posters should say they collect old prescription glasses to donate to the Lions Club. You will need to make at least two boxes for those dropping off, donated glasses. Use art supplies to decorate the collection box to catch people's attention.
