 An exciting new year is here, and we are so happy to start this school year off with a bang! This month we are all getting settled in our new classes, learning new routines and having fun with new activities and games. September was a month for apples, pets, wild animals, and all about me. In the month of September we did activities to help us with writing our letters better. We made a paper friend to help us learn about ourselves by drawing a nose, eyes, mouth, and ears. Our last focus to end the month, was to understand what a "pet" means. We learned that most of the class have dogs as their pet in their homes. Room 6 is ready to enter October!

News

During the month of September, we had so much fun learning about pets and zoo animals. We got to learn about apples, and our favorite part about that was tasting them. We celebrated our uniqueness learning about differences that makes "us". With this, we learned about body parts and feelings, and talked about our 5 senses, as well as the different types of families around the world. It was a great month to start off the year, but we are ready to conquer the month of October!
