

**CHILDRENS
Lighthouse
LEARNING CENTERS** Texas Center Specific Information

Childrens Lighthouse of The Woodlands
5585 Creekside Forest Drive, The Woodlands, TX 77389
Childcare Licensing Phone Number: (936) 756-1551
Childcare Licensing Address: 2017 N. Frazier, Ste. C1, Conroe, TX 77301
Website: www.dfps.state.tx.us
Abuse & Neglect Hotline: 1-800-252-5400

Operational Hours and Days Closed: Childrens Lighthouse of The Woodlands is open Monday – Friday from 6:30 am to 6:30 pm from January through December. We are closed for observance of the following holidays: New Year’s Day, Good Friday, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Friday of Thanksgiving week, and Christmas Day. If a holiday is on Saturday, we will be closed on Friday for observation of the holiday. If holiday is on Sunday, we will be closed on Monday to observe the holiday.

Our center closes early at 3:00 pm on the Wednesday of Thanksgiving Week, and Christmas Eve, and at 4:00 pm on New Year's Eve.

Staff Immunizations: Preventable disease immunizations for staff are not required.

Hearing & Vision Requirements: Children four years of age or older, who are enrolled in any facility for the first time, should be screened for vision and hearing within 120 calendar days of enrollment. If a child is enrolled within 60 days of the date a facility closes for the summer, the child's vision and hearing must be tested by December 31 of that year. Children previously enrolled in a facility that is four or five years of age on or before September 1st must be screened for vision and hearing by December 31.

Health and Safety: To minimize the spread of illness and maintain the health of all children at the center, Childrens Lighthouse trains employees on health checks if applicable to look for signs of illness. We may, if applicable, conduct health checks on the children prior to arrival or throughout the day at the center. A health check is defined as a visual or physical assessment of a child to identify potential concerns about a child’s health, including signs or symptoms of illness and injury, in response to changes in the child’s behavior since the last day of attendance. We will observe the child and look for signs of illness and parents will receive documentation on either the daily communication sheet or incident/accident/illness report.

Child Abuse and Neglect: Children’s Lighthouse trains employees on the prevention, recognition, and reporting requirements for child abuse situations. This training is required to be completed during their first 90 days of employment and each subsequent year of employment. The training includes opportunities for feedback and a written questionnaire to

insure an understanding of the information presented.

We will inform parents of information on child abuse and neglect prevention methods as well as warning signs of abuse for our employees and parents through the following methods: memos, monthly newsletters, and on the center website, Facebook, and Twitter. The information provided might include local child advocacy websites that give extensive information for preventing and/or detecting abuse.

Parents of children who are/have been victims of abuse or neglect should contact the local child advocacy center, child protective services or law enforcement to obtain assistance and intervention. A list of your community child advocacy websites or other information on child abuse can be obtained from your Center Director.

Parent Communication: Parent participation for events such as class parties, class activities, school events, etc. is communicated through postings in the classrooms, school activity board, front area, Facebook, newsletters, parent calendars, emails, PreSchool2Me application platform, and parent handouts. Policy changes in the center's operational policies related to child enrollment will be communicated to parents through postings in the classrooms, school activity board, newsletters, emails, and parent handouts.

Animals: Childrens Lighthouse of The Woodlands does not allow animals into the facility unless they are approved by the center's management.

Water Activities with Splash Pad: Childrens Lighthouse of The Woodlands operates a splashpad water feature. These policies are effective throughout the year.

1. Written parental consent is required for any child to be allowed to use the splashpad.
2. There will be a 30 minute maximum usage time per child per day.
3. All children MUST wear rubber shoes and suitable clothing to participate
4. All children must bring their own towel.
5. There will be no more than 12 children on the Splash Pad at a time.
6. Sunscreen will be applied with signed parent permission.
7. Children must follow to participate.

Discipline, Suspension and Expulsion Policy:

- At Childrens Lighthouse we use a method of diversion as a form of discipline. Our staff do not use negative or harsh forms for discipline.
- Our staff utilize an incident form to report to school management and to the parent any and all incidences of aggressive behavior in the classroom on an incident-by-incident basis. Incidents are reported daily to the parents. This incident form must be signed by the Teacher, School Management and Parent.
- In addition, School Management will get written input form the parent(s) regarding the child's behavior, and possible suggestions for redirection and guidance of the child upon enrollment or upon first incident.

- As deemed necessary, School Management and Parent will have a conference to place child on a corrective action plan. Upon additional incident, the parent will be called to pick up the child from the school. Depending upon the severity of the incidences, parent may be asked to keep child at home for one or more days.
- If disenrollment is necessary, School Management will give the family one-week notice unless there is a safety risk to the child or other children in the classroom. If there is a safety risk, the child will be disenrolled immediately.
- Childrens Lighthouse reserves the right to expel or suspend a child for any reason (behavior-related or otherwise) of its choosing, and without notice for any period of time. Typical reasons for this could include child behavior, child illness, child as risk of causing serious injury to other children or to himself/herself, child's inability to adjust to the school after a reasonable amount of time, threatening behavior or language towards other children or staff, parent behavior, late payments, and parent refusal or delay in completing required forms.

Insect Repellant and Sunscreen Policy: On occasion, we may apply over-the-counter insect repellent or sunscreen spray or lotion to your child. An appropriate approval form will need to be signed by the parent before we will apply said repellent or sunscreen to your child. Parent may opt to provide their own insect repellent and/or sunscreen spray or lotion to be applied to their child. In such instances, the spray or lotion container must be provided to the school management, labelled with the child's name, and a parent release form signed before the spray or lotion is applied to the child.

Safe Sleep Policy: All staff, substitute staff, and volunteers will follow these safe sleep recommendations of the American Academy of Pediatrics (AAP) and the Consumer Product Safety Commission (CPSC) for infants to reduce the risk of Sudden Infant Death Syndrome/Sudden Unexpected Infant Death Syndrome (SIDS/SUIDS):

- Always put infants to sleep on their backs unless you provide an Infant Sleep Exception form 2710 signed by the infant's health care professional [§746.2427 and §747.2327].
- Place infants on a firm mattress, with a tight fitting sheet, in a crib that meets the CPSC federal requirements for full size cribs and for non-full size cribs [§746.2409 and §747.2309].
- For infants who are younger than 12 months of age, cribs should be bare except for a tight fitting sheet and a mattress cover or protector. Items that should not be placed in a crib include: soft or loose bedding, such as blankets, quilts, or comforters; pillows; stuffed toys/animals; soft objects; bumper pads; liners; or sleep positioning devices [§746.2415 and §747.2315].
- Also, infants must not have their heads, faces, or cribs covered at any time by items such as blankets, linens, or clothing [§746.2429 and §747.2329].
- Do not use sleep positioning devices, such as wedges or infant positioners. The AAP has found no evidence that these devices are safe. Their use may increase the risk of suffocation [§746.2415 and §747.2315].

- Ensure that sleeping areas are ventilated and at a temperature that is comfortable for a lightly clothed adult [§746.3407(10) and §747.3203(10)].
- If an infant needs extra warmth, use sleep clothing (insert type of sleep clothing that will be used, such as sleepers or footed pajamas) as an alternative to blankets [§746.2415 and §747.2315].
- Place only one infant in a crib to sleep [§746.2405 and §747.2305].
- Infants may use a pacifier during sleep. But the pacifier must not be attached to a stuffed animal or the risk [§746.2415 and §747.2315].
- If the infant falls asleep in a restrictive device other than a crib (such as a bouncy chair or swing, or arrives to care asleep in a car seat), move the infant to a crib immediately, unless you provide an Infant Sleep Exception form 2710 signed by the infant's health care professional [§746.2426 and §747.2326].
- Our child care program is smoke-free. Smoking is not allowed in Texas child care operations (this includes e-cigarettes and any type of vaporizers) [§746.3703(d) and §747.3503(d)].
- Actively observe sleeping infants by sight and sound [§746.2403 and §747.2303].
- If an infant is able to roll back and forth from front to back, place the infant on the infant's back for sleep and allow the infant to assume a preferred sleep position [§746.2427 and §747.2327].
- Awake them strengthen their muscles and develop normally [§746.2427 and §747.2327].
- Do not swaddle an infant for sleep or rest unless you provide an Infant Sleep Exception form 2710 signed by the infant s health care professional [§746.2428 and §747.2328].

Emergency Evacuations: In the case of a real fire or other emergency evacuation of the center, after local authorities have notified us of the situation, we will evacuate the center premises and move to our emergency evacuation location site. And following the steps indicated below:

Childrens Lighthouse

5585 Creekside Forest Drive
The Woodlands, TX 77389

Alternate Shelter

The Broadmoor at Creekside
5665 Creekside Forest Drive
The Woodlands, TX 77389

In case of an Emergency Call - 911

Designated Safe Areas - Fire

Parking lot on Creekside Forest
Back wall of the Playground

Designated Safe Areas - Disaster

Hallway Restrooms and Hallway

Back Wall of Playground

- All management team members and Lead Teachers will be notified that the building will be evacuated to the designated evacuation location.
- The Center Director will take the front office Emergency Evacuation Binder. This binder contains a copy of the enrollment forms containing emergency contact phone numbers for every child.
- The Emergency Evacuation location site listed above is contacted that we will need their facility
- All classrooms take all the children from the room, and bring along the attendance and sign in/out sheets, and undertake a complete name to face attendance prior to leaving the class and again at the evacuation site. Management staff or other auxiliary staff may be asked to assist in the evacuation if there are children with special needs who require additional assistance.
- The management team will then walk the building after the evacuation to ensure that no person is left behind.
- The center then proceeds to the emergency alternate location, which is listed above. Once the children and staff are settled in and accounted for, the Center Director must proceed in coordinating the management team to contact all parents. Parents will be

informed of the situation and where to pick up their child.

- The Center Director will also inform state licensing and the local authorities about the evacuation and provide details of the site of evacuation and the situation of the children.
- Group activities take place until management has been informed that the threat has passed.
- When parents are allowed to reach the evacuation site to pick up their child, proper identification will be required to be provided by the parent or authorized person, before the child is released to them.

*PLEASE NOTE: Children who are under 24 months of age or unable to walk be placed in cribs and rolled to a safe area. Children with mobility impairments will be assisted by the staff. These cribs must be clearly marked with red tape and the wheels should never be in the locked position. Four children can be transported in each designated evacuation crib.

Center Lock-down Safety Procedures: These lock down procedures may be used in the event of a severe storm, natural disaster or threatening individual.

What is a Lock-Down? A lock down occurs when there is a severe natural disaster, storm, or threatening individual at the premises. The center will have all of the children and staff members congregate indoors in their individual classrooms in a secure place as far away from all of the windows and doors as possible. Where available, all curtains are drawn or blinds closed, windows and exterior doors locked. The intent of the lock-down is to insure that a threatening individual cannot enter the building. In the case of a chemical spill, it may be necessary to close windows and turn off the heat and air-conditioning. Group activities take place until management has been informed that the threat has passed.

Emergency Lock-Down Procedures: Staff are provided the following guidance on emergency lock-down procedures.

1. Don't Panic - Sound whistle or code word through the speaker system, established by center management and given to staff members during orientation.
2. Notify Manager/ office staff to call appropriate emergency services.
3. Manager to delegate staff member to lock all exterior doors leading into the building and to disable the security door at the entrance.
4. Commence lock down.
5. Bring all children indoors immediately.
6. Draw all curtains and/or blinds, lock all windows and exterior doors immediately.
7. Lead Teachers will gather attendance sheets and daily sign in/out sheets.
8. Teachers will gather all children to a secure area of the room, which has been previously designated as a "safe area" away from windows and all doors.
9. Teachers will complete a head count of all children staff and students- alert Center Director if anyone is not present.
10. Teachers need to begin group activities with children to keep them calm.

11. Center Director will communicate and update staff until it is safe and appropriate to resume normal play

Tornado Safety Procedures: Children's Lighthouse will follow the instructions of local authorities during the time that a tornado is approaching. (Tornado Drills are practiced twice a year at the center.)

- All teachers take current roll sheet and calmly direct children to interior hallway.
- Infants are placed into emergency evacuation cribs and taken into the interior staff restroom.
- Any children with mobility impairments are assisted by staff to the interior hallway
- The number of children are counted and an eye-to-eye attendance taken.
- Children are lined up in the hallway facing the wall in the "duck and Cover" position. (Sitting with criss-crossed legs, head between knees and hands folded to protect their head.)
- To calm the children, teachers sing familiar songs to engage and reassure them.
- Management Team members do a swift walk-through of all classrooms to assist with stray and frightened children.
- Center Director or person in charge documents on the CLLC Monthly Fire / Safety Practices log. (Available on Center Connect per State Regulations)
- Once the drill or storm threat has passed, management will give the "all clear" signal and everyone then returns to their classrooms.
