& Mrs. Teresa

### News

Our infant class is onto a great start! We made Baby's First Books for our sensory project, and ate and played with gelatin jugglers. Our little friends also had fun with our texture board, and played with pop up pals and George in the box. For our finger play, we did, "Where is Thumbkin?", which they enjoyed very much! School started so well, we are ready for a fantastic year!

**News**

**In August, we officially started our school year! We are so happy to see our friends. We learned so much and had lots of fun! We decorated oval shapes and faces, made a night time sky with a bright big moon. We are drinking water out of open cups, and saying please and thank you. Our favorite part of the day is marching to the playground while singing songs. Room 3 is loving their new friends and classroom!**

& Ms. Hailey**

**News**  
**In the month of August, we learned about the difference between a hippo and elephant. We also worked with different textures and painted on foil with sandpaper. This month was our favorite because we got to read our favorite book, "Brown Bear, Brown Bear". We did several things with the color blue, to help us explore what items are blue. We are excited for the school year!**

Ms. Kaitlin

News

Our new students are on a great start to a new year! We welcomed so many new faces and are very excited for what's to come this fall! We started our cares curriculum, learning about "Our Home" and "All About Me, so students got to share about themselves and what makes them special inside and out. We also learned about apples, wild animals, and pets. So far it's been awesome to beginning to the school year!

& Ms. Jillian**

News  
At the beginning of August, we had fun learning about hydrobiology and astronomy. Our friends enjoyed making several projects that involved water, and enjoyed pretending to be astronauts. Room 7's favorite project was the edible galaxies! Our new friends joined us at the end of month, and we are now happy to start our new school year!

Room 9  
Mrs. Adriana

News  
We are happy to have started our new school year with the APK program! We have several activities planned for us, and a strong curriculum scheduled for the year. Room 9 is ready to kick it in high gear!

Room 10  
Ms. Maria

News

Summer went by so fast, but we created so many memories. During these recent days we enjoyed many inside activities. One of our favorites was the planetarium that was built inside our classroom. We were able to explore the moon, stars, and planets. We also had a huge water day with slip-n-slides and sprinklers. To end the summer, Kona Ice made a trip to our center to cool us off! We are sad that summer is over, but excited for the journey ahead of us with virtual learning.
